

Serious About Recycling

FOOD WASTE

Veggies, solid dairy, cooked meats, compostable cups/packs, paper towels.

Rubbish, uncooked meats and seafood, oils, liquids, biodegradable plastics.

➤ Reclaim diverts recyclable products at source to ensure waste is recycled responsibly. Using correct sorting procedures, we assure businesses that their recyclable waste is converted into new end-products. Food waste is sourced from various cooked food waste (meats, veggies, dairy produce) and can be mixed with serviettes and paper towels. Reclaim ensures all this waste is turned into compost.
